### **TRI Manages and Provides Multi-Media, Logistical, and Communications Services for the National Library of Medicine (NLM) Debakey Seminars in Medicine**

*Bethesda, Maryland – March 6, 2007*, TRI manages and provides multi-media, logistical, and communications services for the National Library of Medicine (NLM) Debakey Seminars in Medicine: The Medical Technology and Artificial Body Parts Symposium. The symposium is attended by 500 local high school students. The goals of the seminar are to showcase medical science as a career path and raise awareness regarding the extensive resources available through the National Library of Medicine (NLM). The symposium brings together the top scientists and medical doctors in the organ and transplant field to discuss advances in research. Students are invited to ask questions of the speakers following their individual presentations and to explore exhibits following a complimentary lunch. TRI manages conference, registration, and speaker support services in addition to conference material production for the one day seminar held March 6, 2007 at the New York University School of Medicine.

Artificial Skin

Artificial Heart (Dr. DeBakey)

Artificial Outer Ear
