TRI Protocol Information Office Staff Honored with NCI Award

Bethesda, Maryland (November 4, 2008): TRI is pleased to announce the members of its Protocol Information Staff who have been honored with an NCI award through the National Cancer Institute, National Institutes of Health under the U.S. Department of Health and Human Services. Alisandra Johnson, Martha Kruhm, M.S., RAC, and Nessa H. Zimmerman, R.N. were each presented their group award for effective collaboration with Vanderbilt University that developed process maps to analyze the protocol development process and institute improvements to shorten protocol development timelines by John E. Niederhuber, M.D., Director, National Cancer Institute.

TRI would like to extend warm congratulations to Alisandra Johnson, Martha Kruhm, M.S. RAC, and Nessa H. Zimmerman, R.N., for maintaining the level of client service excellence established here at TRI. Since 2002, Alisandra Johnson, Martha Kruhm, and Nessa Zimmerman have had the pleasure to support the needs of the Protocol Information Office. Among these support services are collecting, processing, tracking and monitoring all protocol related information between CTEP and its extramural collaborators (investigators, Cooperative Groups, Cancer Centers, FDA, pharmaceutical industry, other NCI programs, etc.). This includes, but is not limited to, abstracting protocol-related information and milestones into the CTEP-ESYS to assist with program decision making, as well as promoting, informing, and educating all concerned parties regarding NCI programs, policies, and objectives related to clinical trial development and management.
